CAREER SUMMARY

I am a Frontend Developer specializing in React. I architected and deployed OpenJournal, a full-stack platform integrated with Appwrite. Currently a B.Sc. CSIT student, I am focused on delivering clean, maintainable, and production-ready code that meets industry standards.

SKILLS

Languages and Frameworks:

React.js, JavaScript, HTML, CSS

Design:

Tailwind CSS, Figma, Responsive Design

Tools & Technologies:

Git, GitHub, Appwrite (BaaS), Netlify

TECHNICAL PROJECTS & APPLIED EXPERIENCE

OpenJournal — Full-Stack Developer

2024–Present — Self-Directed Project

- Engineered a React component-based UI designed for rapid rendering and optimal frontend performance.
- Integrated Appwrite (BaaS) to handle secure real-time data persistence and user authentication workflows.
- Implemented a mobile-first design using Tailwind CSS, prioritizing a minimal code footprint and fast load speeds.
- Managed the end-to-end development lifecycle, including continuous deployment and hosting via Netlify.

EDUCATION

Bsc. Computer Science and Information Technology

2024–2028 (Expected)

Patan Multiple Campus, Nepal

Department of CSIT

TECHNICAL STRENGTHS

UI Fidelity:

Precise translation of Figma designs into responsive React components.

BaaS Integration:

Proficient in integrating Appwrite for authentication and real-time data persistence.

Clean Code:

Committed to modular component architecture and maintainable CSS structures.
